PROFESSIONAL SUMMARY

Data Science graduate skilled in **machine learning, AI, NLP, deep learning, and workflow automation**. Experienced in developing intelligent, data-driven applications using Python, Power BI, and modern frameworks. Passionate about deploying scalable ML systems, building RAG-based chatbots, and applying analytics to solve real-world business challenges.

SKILLS SUMMARY

Programming: Python, SQL, JavaScript, HTML/CSS

Data Science: Machine Learning, Deep Learning, Data Analysis, Data Visualization, NLP, Computer Vision, RAG

Frameworks/Libraries: PyTorch, TensorFlow, scikit-learn, OpenCV, Matplotlib, Hugging Face, Sentence-Transformers, FAISS

Tools & Platforms: Power BI, Selenium, n8n, Flask, Streamlit, Docker, GitHub, MySQL

Soft Skills: Problem Solving, Research, Communication, Team Collaboration

PROJECTS

KSFormer – Skin Lesion Segmentation

July 2025

- Developed a deep learning-based segmentation system for early skin disease detection.
- Achieved 96% Dice score with high IoU, precision, and recall.
- Deployed using Flask and MySQL with an automated preprocessing and inference pipeline.
- **Technologies:** Python, PyTorch, NumPy, OpenCV, Flask, MySQL, HTML/CSS, JavaScript.

Wikipedia RAG Chatbot – NLP & Vector Search

Sept 2025

- Built a Retrieval-Augmented Generation (RAG) system to answer natural-language queries using Wikipedia data.
- Created embeddings via Sentence-Transformers and optimized retrieval with FAISS.
- Integrated Hugging Face Inference API (Mistral-7B) for contextual responses.
- **Technologies:** Python, Pandas, NumPy, FAISS, Sentence-Transformers, Hugging Face API, Flask.

EDUCATION

Bachelor of Data Science

Dec 2021 – Sep 2025

GIFT University, Lahore

RELEVANT COURSEWORK

- Data Mining, Machine Learning, and Deep Learning
- Natural Language Processing
- Computer Vision
- Database Management Systems
- Statistics for Data Science
- Artificial Intelligence

CERTIFICATIONS

- CSS, JavaScript, PHP & Python Programming, Udemy (2024)
- Google Sheets, Google Cloud (2025)
- GenAI Job Simulation, BCGX (2025)
- Data Science & Analytics, HP Life (2025)
- Data Visualization, TATA (2025)
- Fundamentals of Text Data Manipulation, CodeSignal (2025)
